OVS Solutions (Pty) Ltd, the exclusive Africa licensee of Rapid Software Solutions, are proud to announce Rapid Global's ISO 27001 certification

OVS/Rapid Global

May 31, 2022

OVS Solutions is delighted to announce Rapid Global have been awarded ISO 27001 certification for its Information Security Management Systems (ISMS).

Rapid now meets the International Organisation for Standardisation (ISO) requirements for a documented and implemented process that manages the risk of intellectual property and personally identifiable information. It also provides the assurance that Rapid provides excellent systems and service to its clients.

“Here at Rapid, we are focused on developing software solutions that protect the operations and digital assets of our clients,” said Tim Johnson, Managing Director, Rapid Global. *“Achieving ISO 27001 certification demonstrates our commitment to a culture of safety and excellence in everything we do.”*

This significant step demonstrates Rapid's commitment to the security of information and certifies that its operations support secure services for clients in accordance with the ISO 27001 standard.

This certification and audit process was conducted by [CyberCX](#).
